

### Connect

Provides you with core telematics data to manage health, maintenance insights and condition monitoring to reduce operating costs.

#### HOW CONNECT HELPS MY BUSINESS

- INCREASE VISIBILITY** of your operation with daily information about asset hours and location.
- \*NEW\* MONITOR FUEL DEF LEVELS** to track utilization, cost and enhance operational efficiency
- REAL-TIME CRITICAL FAULT CODES** to reduce unplanned downtime.
- EASILY EXECUTE PREVENTATIVE MAINTENANCE** with service scheduling & parts purchasing.
- ESTIMATE EXHAUST CO2 EMISSIONS** included in expanding reports.

**DAILY REPORTING**  
Complimentary for Cat® models

### ConnectPro

ADDS more robust monitoring data to CONNECT level subscriptions to improve asset utilization and operations management.

#### WHAT CONNECTPRO ADDS

- PROACTIVELY MANAGE ASSET LOCATION** with use of geo-fences and recording of asset entries and exits.
- MONITOR MACHINE EVENTS** with customizable digital switch inputs that best meet your unique needs.
- MAXIMIZE UPTIME** by tracking engine start/stop time.
- CONTROL SITE SECURITY** with remote disable capacity.

**FLEET EVALUATOR**  
Detailed health assessments & cost performance

**INSTANT UPDATE!**  
Request hours/location on demand

**DAILY REPORTING**  
Cellular & Satellite

### Performance

ADDS even more comprehensive data with increased frequency over CONNECTPRO level for smarter, faster decision making.

#### WHAT PERFORMANCE ADDS

- OPTIMIZE SITE EFFICIENCY** through more frequent data reporting, review and response.
- IMPROVE PRODUCTION** With total payload and cycle count.
- MORE EFFETIVE UTILIZATION** with advanced breakdowns, analysis and mapping.
- EXPANDED VISIBILITY INTO FLEET ALERTS** with real-time critical and non-critical alerts.
- OPERATOR COACHING TIPS** Identify training opportunities and techniques to improve machine performance.

**PREDICTOR**  
Component life-cycle management

**HIGH-FREQUENCY REPORTING**  
Cellular 10 min. intervals  
Satellite 4 hour intervals

### Performance + Grade Connectivity

ADDS Grade fleet management and remote support capability.

#### WHAT PERFORMANCE GRADE CONNECTIVITY ADDS

- SHARE GRADE RELATED FILES** through more frequent data reporting, review and response.
- CONNECT TO GNSS CORRECTION SERVICES** over cellular to reduce dependence on local site infrastructure.
- PROVIDES REMOTE ACCESS** for troubleshooting and training.
- MODIFY BASIC GRADE SETTINGS** via a normal cellular connection.
- ELIMINATE REDUNDANT CONNECTIVITY** such as extra cellular modems or separate SIM cards.

**HIGH-FREQUENCY REPORTING**  
Cellular 10 min. intervals

### Performance Pro

ADDS more robust site/project monitoring data, inclusive of all the features of the PERFORMANCE level and GRADE CONNECTIVITY capabilities.

#### WHAT PERFORMANCEPRO ADDS

- INCREASE SITE PRODUCTIVITY** through more frequent data analytics and reporting that integrate multiple machine productivity datasets from the entire site.  
+ Utilize 3D Productivity data visualization to maximize site efficiency and project progress tracking
- IMPROVE RESULTS TRACKING** precise payload, location and time details while developing cycle segmentation data for analysis.
- NEW FEATURES INCLUDE:**  
+ Jobsite level utilization data  
+ E-Ticketing for onboard payload systems  
+ 3D Grade Visualization

**DISPATCH FOR LOADING:**  
\$360/Asset/Mo.

**HIGH-FREQUENCY REPORTING**  
Cellular 10 min. intervals

### ADDITIONAL SUBSCRIPTIONS

### Track

Track location on non-powered asset  
Prepaid with hardware or one-time subscription fee

**HIGH-FREQUENCY REPORTING**  
Cellular 10 min. intervals  
Satellite 4 hour intervals

### Track Pro

Track hours and location on assets with mechanical engines

**HIGH-FREQUENCY REPORTING**  
Cellular 10 min. intervals  
Satellite 4 hour intervals

### Third Party Data Import

Bring telematics data for other OEM brands into VisionLink
